ICS 85-8097
23 July 1985

Mr. Bernard F. McMahon, Staff Director
Select Committee on Intelligence
United States Senate
Washington, D.C. 20510

Dear Bernie:

Enclosed are copies of four documents that were requested in the Chairman's 11 July 1985 letter to the DCI. Please note that the "forecast of questions" referred to in the Chairman's letter is a document known within the Intelligence Community as the "Future Intelligence Requirements Forecast" (FIRF). At present, this document is undergoing a Community-wide review for possible changes from the standpoint of both its substance and methodology. For this reason, we are providing a short paper (Tab D) which describes the document and how it is presently used, and we will make appropriate arrangements with the Committee concerning the revised FIRF once the Community review is completed. The enclosures are as follows:

Tab A--FY 1985 Capabilities Study;

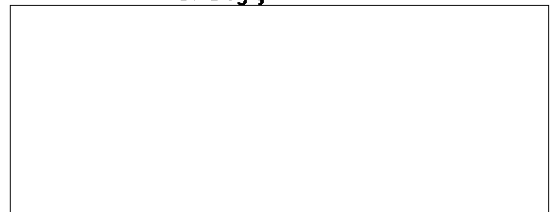

Tabs B & C--Senior Review Panel documents requested; and

Tab D--provides the aforementioned paper on the Foreign Intelligence Requirements Forecast (FIRF).

We hope these documents will be useful to your efforts. The other materials requested in your letter will be forthcoming shortly.

Sincerely,

Enclosures
